Reporting Status

Updated Partial Prelim Results for 32 samples: 4 samples have all prelims for expedited constituents; 11 have all prelims for expedited constituents except for coliform results. HW01 for dissolved gases was not shipped to R9. Total of 32 samples have prelims submitted (21 sample locations).

Final reports for first set of MBAS and Dissolved Gases/TPH uploaded to FTP Site.

Some samples had constituents above the screening level. Final review for these samples is currently underway. All other results submitted are below screening levels or non-detected.
